

# COMPACT Integrated POS

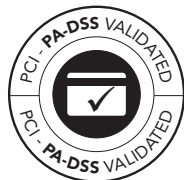

## Semi-Integrated or Stand-Alone Payment Solutions

The G3 Series of products features the ultimate in compact mobile Point-of-Sale solutions. With both semi-integrated software solutions and stand-alone capabilities, you can use them as a cost-effective solution to work with your existing payment systems or choose one to be an individual device. The choice is yours. Fully compliant with payment industry standards, these user-friendly devices support signature capture, EMV, and NFC—all while retaining a compact ergonomic design.

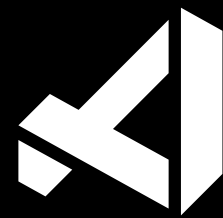

- **SECURE**  
PCI PTS 4.0 certified PIN Pad
- **SCALABLE**  
Ideal partner to your Point-of-Sale system
- **FLEXIBLE**  
Multiple communication options allow for easy integration of other devices, supporting multiple use case scenarios

### CERTIFICATIONS

# G3 SERIES

## Features & Benefits

**Secure Transactions** - We maintain the highest level of security for payment processing

**Manage your PCI Scope** - By eliminating cardholder data within your system, our semi-integrated solution saves you time and money on PCI compliance

**Electronic Signature** - Minimize fraud risk and cut down on paper by having customers use an environmentally-friendly e-signature

**Contactless** - Offers customers the option for fast, easy, and secure contactless payment transactions

**Seamless Integration** - Works with your current POS solution, creating cutting edge integration and connectivity able to adapt to future needs

**Multiple Cable Ports** - A variety of external communication ports offer the power to connect to other devices, enhance usability and extend features that can meet future needs

**Premium User Experience** - A bright and vivid screen makes viewing transactions easier than ever before
